

**A one stop shop for St. Pete CRA residents for energy upgrades**

## Meet our Team

### Bartlett Park Neighborhood Assoc.

Founded in 1991  
25 Active Members  
Started Community Garden  
Works Closely with Police Dept

City of St. Petersburg  
Agreement to Work in Program  
Funds Rehab Program

### Suncoast Housing Connections

Est. 1982 - Built/Rehabbed over 600 homes  
Worked in South St. Pete since 1991

Duke Energy  
Access to Low Income Weatherization Program

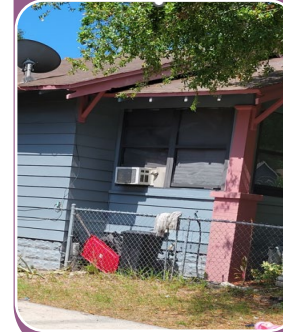

### Pinellas Technical College

Local trade school for the construction industry  
Internships for paid on site training

## How we Innovate

### Inspections, Appliance testing, Blower Door & Leak Tests

- Identify plumbing, electrical, HVAC issues including low energy rating appliances
- Find problematic windows, doors, & material surfaces that can effect air quality & health.(Lead paint, old carpets, mold, etc.)

### Upgrade building materials boosting energy efficiency, reinvigorating healthy homes!

Replacement windows, doors, roofs, + air seal & insulate ensuring a tight, but ventilated building envelope.

Replace leaky ductwork or inefficient window air conditioners with ductless minisplit systems. (No leaks and 30%+ more energy efficient.)

New heat pumps, pex piping, electric panels, energy star appliances. Rip and replace old carpets with vinyl flooring.
