

# Ensurge Micropower: 1-100 mAh Rechargeable Solid-State Lithium High VED Microbattery for Wearable, Hearable and IoT Applications

Launched Solid-State Lithium Microbattery Strategy in 2020

State-of-the-Art Roll-to-Roll Manufacturing Facility.

Intellectual Property in Barriers, Materials, Devices and Packaging

**Diverse Team: 32 Employees**  
Mark Newman (CEO)

Arvind Kamath (EVP Tech)

Jay Tu (VP Manufacturing)

Battery, Product, Process, Packaging, Test. Operations

Strong Semiconductor/Battery Experience

## San Jose, CA

- 20,000 ft<sup>2</sup> Semiconductor grade R2R battery fabrication and test cleanroom
- 70,000 ft<sup>2</sup> packaging/test/office area
- Integrated manufacturing for potential secure US supply chain facility
